VCU provides specific admission information, including course prerequisites for admission, through VCU Transfer Maps (https://majormaps.vcu.edu/transfer). Prospective clinical radiation sciences and nursing (traditional program) applicants should consult the VCU Transfer Maps (https://majormaps.vcu.edu/transfer) to determine whether they should apply to VCU after completing 30 credits at community college (to avoid earning excess credits after transfer). Students interested in health administration or health services (rather than health science programs) should review the VCU transfer map for the B.S. in Health Services. Due to the competitiveness of these health science programs, VCU recommends students consider a back-up major.
